

Oliver

STAR OF TOMORROW AWARD RECIPIENT

OLIVER PARIS

YEAR AWARDED: 2023

MECHANICSBURG, PENNSYLVANIA

Oliver is a Junior at Mechanicsburg Area Senior High where he carries a 3.75 GPA. He is the son James and Jenell Paris.

Oliver is an avid youth tournament bowler, still seeking success at the state level, however, at the local level has won two team championships. Oliver has a high game of 256 and high series of 647.

Oliver is not just a USBC Youth member. In high school he has participated on the Junior Varsity and Varsity Volleyball Team. He has participated in the YMCA Youth Basketball league and also the Mechanicsburg Ski Club.

While attending high school he has been active in marching band and concert band. After failing to qualify for District Band, he found a private instructor who has helped him achieve his goals. His essay answer spoke to the point of learning humility and needing to work hard to reach one's goals. He has since qualified for District Band and Regional Band, playing the French horn.

Oliver has also been involved with volunteer work and community service in many various ways. His involvement with his church has allowed him to serve on a mission trip to Alaska, working with the church youth group and does various service projects at the church. He has spent time on roadside cleanup projects, Mission Central Disaster Relief Warehouse/Food Bank. He volunteered at the middle school volleyball camp and helped with the set-up and tear down of Dillsburg's Game Night for three years.

It is our pleasure to present Oliver Paris, the 2023 Male Star of Tomorrow Award.
